OUR WORK WITH WOMEN EXPERIENCING DIVORCE

Going through a divorce can be one of the most stressful events anyone can go through, and that can be amplified for women. Women's finances tend to take a bigger hit than men's after a divorce. With our experienced team behind you, we can help you navigate these unique challenges:

- Asset Transfer
 - In conjunction with an attorney, our team will help review and provide guidance on transfers or buyouts of jointly owned assets. We will then work with you on creating a comprehensive financial plan focused on the future you want to create.
- Estate Planning
 - Our team will help review and implement changes needed within your estate plan such as updating beneficiaries on the appropriate accounts/policies.
- Income Tax Planning
 - Our team will help address the tax ramifications that occur with filing status change and potential influx of assets or income.

At Adams Wealth Management, we will relentlessly pursue your financial success and happiness. To learn more about our team, please contact Neil Adams or Kara Hill.
